From The Executive Director......

Thank you is a feeling expressed at Sojourners’ Place regularly, for we are always thankful to each of you for helping us to be in the position where our residents can thank us every day for the services they receive here. Many say they could not accomplish what they do without us......and we know we could not accomplish what we do without you. The holidays in December focus on light and hope, salvation and harmony, and peace, for these are universal as they are individual. These things reflect back to you: your support in so many and varied ways brings us face-to-face with these gifts day after day.

And so we begin 2020 with joy in our hearts and hope in our hands, because we know without a doubt that, while we might not be able to eliminate homelessness and the addiction epidemic completely, we know without a doubt that, with your continued support, we can help our men and women get the services they need to turn their lives around. And we will do so with care and compassion and great quantities of (tough) love.

Warmly and sincerely,
Robyn
